

Toxicology at Texas A&M University

Graduate Studies: Placement of TAMU Toxicology Graduates

The demand for well-trained toxicologists has never been higher. Highly competitive salaries are available in a variety of employment sectors. Increasing specialization in the science of toxicology now provides the toxicologist with a competitive advantage over chemists, engineers, biologists or other scientists without specialized training in toxicology. Because toxicology is a rapidly growing field, opportunity for career advancement to executive levels is excellent for those with organizational and administrative skills and an excellent record of scientific achievement.
